

SPOTLIGHT ON

Lula's Patties Pocket-Sized Delights

ABOUT LULA'S PATTIES

Lula's Patties are 'baked with love from the oven, straight to your table', and we couldn't put it better ourselves!

The tasty patties are filled with unique fillings that push the boundaries of traditional patties. Putting a spin on the vegetables native to the Caribbean heritage, the patties are a delicious homage to the Caribbean's vibrant food culture that explodes with flavour.

We were delighted to have Laura, the Founder of Lula's Patties join us at our Networking.Event in June 2023 to showcase her products.

Not only were they a huge hit with guests - with plates clearing very quickly! - Laura made connections with the Networking.London community that have been a 'game-changer' for her business journey.

TESTIMONIAL

Attending the Networking.London event at 3 Shortland has been a game-changer for me.

The event not only provided me with a platform to test my product among fellow business owners but also allowed me to promote my product and pitch my entrepreneurial journey. The connections I've made at this event have been invaluable, and I'm optimistic that they will lead to promising business opportunities.

I've had the privilege of engaging in one-on-one meetings with some of the event's attendees, and the insights I've gathered from these interactions are already proving to be instrumental. In fact, one of these connections has opened doors for me, and I am thrilled to share that I've been shortlisted as one of the top three best bakeries in the Caribbean Food Awards 2023.

This event has been a stepping stone for my business journey, and I'm immensely grateful for the opportunities it has brought my way. I look forward to continued growth and success, thanks to my participation in Networking.London.
